

CROP NUTRIENT EQUIPMENT TRUCK HOUSES AND LOCAL SOLUTIONS

CUSTOMIZABLE SYSTEMS TO FIT YOUR BUSINESS

Supporting your customers with an economical solution begins with keeping the product close at hand. Systems can be utilized to fill smooth wall tanks or bulk storage warehouses.

InterSystems Receiving Features:

- ▶ En-masse drag conveyors with electric gates
- ▶ Open belt conveyors with moveable trippers
- ▶ GSI's QuickBolt catwalks for access and conveyor support when storage such as fabric-covered buildings requires long spans
- ▶ Overhead storage ranging from 60 to 300 tons in multiple product compartments
- ▶ 304 Stainless steel equipment construction
- ▶ Galvanized steel structures and platforms

InterSystems Unload Systems:

- ▶ Product conditioning to tower storage with weighing and blending capabilities or floor-based blending
- ▶ Blending towers offer an additional straight-through spout to the weigh hopper(s), vertical and horizontal mixers, or a blender bypass to either traffic through lane for blended or straight product

Options:

- ▶ Re-elevate
- ▶ Load cells on blenders
- ▶ Oversized gates
- ▶ Impregnation
